NURAÂK

COMPANY  
PROFILE

A multi-sector Saudi enterprise delivering engineering, logistics, and tech-driven solutions.

## Our Mission

Building reliable infrastructure and digital growth across the Gulf.

## Our Vision

To be the region's trusted name in innovation and performance.

## Core Values

Integrity

Innovation

Excellence

Reliability

Sustainability

Safety

## Construction & Contracting Division

End-to-end civil, industrial, and residential construction with global quality and safety compliance.

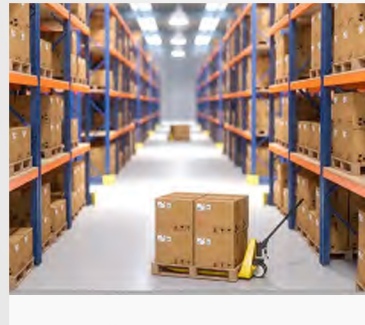

## Electro-Mechanical & Safety Systems Division

Complete MEP, HVAC, and fire-safety solutions from design to installation.

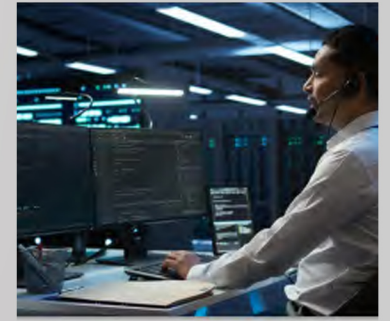

## Logistics & Storage Solutions Division

Reliable transport, container handling, and storage with GPS-tracked fleets.

## Information Technology & Software Solutions Division

Smart software, ERP, and digital systems driving industrial automation.

# HOW WE WORK

Nuraak Gulf Co. executes every project through a structured, transparent, and safety-driven process.

## 1. Requirement Analysis

Understanding Client Goals and Compliance Needs.

## 2. Planning & Design

Preparing Layouts, Resources, and Schedules.

## 3. Procurement & Mobilization

Sourcing Approved Materials and Deploying Site Teams.

## 4. Execution & Quality Control

Supervised Implementation with Continuous Inspection.

## 5. Testing & Handover

System Verification and Client Documentation.

## 6. After-Sales Support

Ongoing Maintenance and Technical Assistance.

## Building the Future, One Structure at a Time

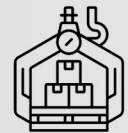

We deliver high-performance infrastructure across industrial, commercial, and residential sectors with safety and precision.

### Expertise:

**Turnkey contracting**

**Industrial warehouses**

**Commercial buildings**

**Modular camps**

**Infrastructure development**

**Urban and residential projects**

Our teams ensure full compliance with international standards from planning to delivery.

# OUR EXECUTION FRAMEWORK

A disciplined process ensures performance, compliance, and efficiency.

## 1. Planning & Design

Feasibility, structural layouts per ISO/ASTM.

## 3. Construction

Civil, MEP, and finishing under expert supervision.

## 5. Handover & Support

Final testing and documentation.

## 2. Resource Management

Optimal manpower and materials.

## 4. Quality & Compliance

Multi-stage inspection and third-party checks.

### Our Strengths

- Skilled engineers
- Integrated operations
- Real-time reporting
- Zero-accident target

## Industrial Projects

Heavy-duty structures for manufacturing and logistics.

## Commercial & Urban Works

Offices, malls, and civic projects with full MEP integration.

## Modular Camp Facilities

Rapid, prefabricated solutions with HVAC and plumbing.

## Residential Development

Modern housing with durable design.

## Infrastructure & Utilities

Roads, drainage, and site development.

## Commitment

- Every build reflects quality
- Endurance
- Safety Excellence

# ELECTRO-MECHANICAL & SAFETY SYSTEMS DIVISION

## Powering Progress with Precision

We deliver complete MEP and safety systems—power, control, and environmental solutions that meet international standards.

### Scope:

- LV/HV Systems
- BMS & Instrumentation
- HVAC
- Plumbing & Fire Systems

# SYSTEM INTEGRATION & IMPLEMENTATION

Our E&M team designs integrated networks for power, automation, and efficiency.

## Key Services:

- Power Distribution
- BMS Integration
- HVAC
- Instrumentation
- Piping

# SAFETY & SECURITY SYSTEMS

## Protecting People and Assets

Intelligent fire, access, and surveillance networks safeguard every facility.

### Core Systems:

- Fire-Fighting & Alarm Systems
- CCTV
- Access Control
- Wireless Alerts

### Integration & Quality:

All systems connect to the central BMS, tested under real conditions for full regulatory approval and ongoing maintenance.

# LOGISTICS & STORAGE SOLUTIONS DIVISION

## Reliable Movement, Secure Handling

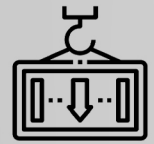

We ensure seamless transportation, container handling, and storage across KSA and GCC.

### Services:

#### Container Transport

#### Port Operations

#### Customs Assistance

#### Storage & Handling

Each move is GPS-tracked and safety-monitored for timely delivery.

# TRANSPORTATION & OPERATIONAL CAPABILITY

Comprehensive logistics network linking major ports and industrial hubs.

**Includes:**

- Cross-border transport
- Port shuttle & recovery
- Real-time tracking

**Customs:**

Fast clearance through trained staff and port coordination.

**Reliability:**

Inspected fleets, certified drivers, and strong GCC partnerships.

# STORAGE & HANDLING SOLUTIONS

## Container Storage

Secure yards with 24/7 monitoring, organized stacking, and drainage systems.

## Stuffing & De-Stuffing

Efficient cargo movement using certified lifting tools.

## Maintenance & Repair

Routine container restoration under strict safety protocols.

## Performance:

Consistent visibility

Traceability

Control at Every Stage

# INFORMATION TECHNOLOGY & SOFTWARE SOLUTIONS DIVISION

## Empowering Businesses Through Innovation

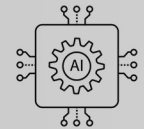

We design smart, scalable software and automation tools that enhance efficiency.

### Core Expertise:

**Software & App Development**

**AI Automation**

**ERP/POS**

**E-Commerce**

**AI Training**

Each solution is customized for measurable growth and enterprise scalability.

# DIGITAL DEVELOPMENT & AUTOMATION

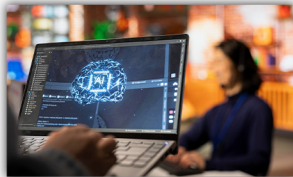

## Software & Apps

Enterprise Tools Built for Secure, Scalable Operations.

## Automation using AI

Streamlining Workflows and Predictive Analytics.

## ERP & POS Systems

Centralized Control of Inventory, Sales, and Reporting.

# ADVANCED TECHNOLOGY & CLIENT ENABLEMENT

## E-Commerce & Games

Global-ready platforms and interactive digital content.

## AI & Data

Predictive systems for analytics and quality control.

## Training

Corporate upskilling in AI and emerging tech.

**Promise:** Innovation that keeps clients efficient, connected, and future-ready.

# PARTNERSHIPS & ALLIANCES

## Collaborations for Impact

We work with certified suppliers, tech partners, and logistics networks to enhance value.

### Network Includes:

Civil/MEP suppliers

AI & ERP tech firms

GCC logistics operators

Goal: Deliver excellence through cooperation and innovation.

# WHY CHOOSE NURAAK GULF CO

## Your Integrated Partner

A one-stop company combining engineering, logistics, and technology expertise.

## Advantages

- Multi-division synergy
- Proven reliability
- Certified quality
- Skilled teams
- Transparent communication
- Sustainable practices

## Promise:

Excellence built on integrity and performance.
